

SMART HEALTH. BETTER FUTURE.

MEHA is an advanced health check-up kiosk designed to deliver accurate health insights in just a few minutes.

PRESENTATION

Height
High-precision ultrasonic sensor, contactless height measurement.

Blood oxygen
Finger clip oximeter.

LCD screen
19" Android LCD touch screen, can play video and pictures as advertisement

Body Temp.
Medical grade professional temperature gun, fast and safe .

Body fat
Using BIA Technology to measure body fat, visceral fat rating and other 17 health items.

Thermal printing
High speed thermal printing, automatic paper cutting, easy paper replacing, settable printing content.

Blood pressure
Omron brand of BP meter, medical grade, more accurate

Weight
High precision balanced beam pressure sensor, high sensitivity, precise and fast.

PARAMETERS

Model: MEHA 900G	SpO2 range: 70-100%
Height range: 0-210cm , Devision: 0.1cm	Body composition: Total 17 items including body fat, water, basal metabolism, visceral fat rating, Bone mass,etc.
Weight range: 1-300kg, Devision: 0.1kg	
Bloodpressure range: 0-299mmHg(0-39.9kpa)	Measurement mode: Automatic measurement or coin operated
HR range: 40-180beats/minute	Display: Display operating steps and measurement results during measuring and ad photos in standby mode.
Fat range: 5.0%-50.0%, Devision:0.5%	
Basal metabolism: 385Kcal-5000Kcal	Data: API connection, support data transmission via wifi or bluetooth
Body Temp. range: 34.0°C-43°C, Devision:0.1°C	
Power: ≤45W	Product weight: Net weight: 45kg, gross weight: 50kg
Work voltage: AC100-240V, 50Hz	Dimensions: MAX:43(L)×61(W)×240(H)cm
